

THE DESERTER

Living in fear of the unknown, Katie's instincts are to protect her brothers, while trying to carve out a haven for them in the fragile and unfamiliar world into which they have been thrust.

As the threats around them grow, she strives to keep them safe, while struggling to convince herself they will ever win through.

It is only by gaining the trust and drawing on the strength of those who have turned their backs on the world, that she is able to face into the challenges she encounters and dare to believe they can survive.
